1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-2,4-7,21 and 22 are drawn to locking device, classified in class 292, subclass 252.
 - II. Claims 8-20 and 23-28 are drawn to a combination locking device and aerodynamic device, classified in class 244, subclass 129.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination includes the relationship of the locking device and the aerodynamic device including various tail and fin or housing relationships. The subcombination has separate utility such as a locking device for the lid of a container such as in the Lamothe et al reference used in the last office action.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Mr Duquette on Feb. 23, 2005 a provisional election was made without traverse to prosecute the invention of group II, claims 8-20,23-28. No affirmation of this election is needed by applicant in replying to this Office

action. Claims 1-2,4-7,21-22 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr Duquette on Feb. 23, 2005.

The application has been amended as follows: claims 1-2,4-7,21-22 are canceled.

6. The following is an examiner's statement of reasons for allowance: Applicant's response of 11/26/2004 has presented convincing arguments that the prior art as applied does not provide a clear reason for combining the prior to include the locking device in the aerodynamic devices as presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Galen L Barefoot whose telephone number is 703-308-2567.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 703-305-7421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1113.
